ABOUT US

Lancers StartUp is a co-educational Early Childhood Learning Centre for children ages 12 months to 3.5 years. It has a strong focus on pastoral care and developing the unique talents of young children. We are renowned for our warm, safe and friendly environment where the children are nurtured by well-qualified and caring teachers.

Our Early Childhood Programme provides a safe, secure and nurturing environment where young children can enjoy a mixture of structured and free-play activities that develop body coordination, independence, sense of responsibility and thinking skills.

VISION

Nature is the best educator. It is universal, absolute and constant. We believe, Lancerians will inherit its completeness. They will be humanitarian in their approach, deft at adaptation, innovative and resourceful in times of crisis and international in their outlook, capable of carving a home for themselves in any global grid.

MISSION

LIS Startup's mission is to provide an environment in which all young Lancerians will become lifelong learners, who are responsible, disciplined, and ethical citizens of the world. Lancerians are understanding and respectful towards people of all races and cultures.

We work towards developing each child socially, emotionally, physically and intellectually. We provide an environment that maintains a healthy balance between academics and sports.

We provide engaging learning experiences where each child develops a sense of self responsibility and strong values.

Through differentiated learning guided by the multiple intelligence theory developed by Howard Gardner, the children are able to develop a positive image of themselves, their peers and everything around them.

We are committed to providing best practices in early childhood education and having the finest preparations that will prepare young learners for their ongoing education, as well as for a rewarding better life.

We create a learning environment that develops self-confidence and enthusiasm for lifelong learning.

ADMISSIONS

Lancers Startup admits children who are at least 12 months old by March 31st. Registration forms are provided in order of requests that are received.

CLASSES

- Crawlers Class – 12 months to 18 months
- Tiny Tots Class – 18 months to 24 months
- Discoverers Class – 2 to 2.5 years
- Explorers Class – 2.5 to 3.5 years

Please speak directly to the Admissions Department in order to receive a registration form. Once the registration form is completed and handed over to the admissions office, the school will contact the parents for a tour.

CRAWLERS (12- 18 MONTHS)

Children admitted in the Crawlers class will be first taught how to overcome their anxiety caused by the separation from the comfort and familiar surroundings of their home. The learning environment will focus on providing infants with a secure avenue to explore and develop their gross motor skills, responsive caregiving and early language support.

TINY TOTS (18 - 24 MONTHS)

The Tiny Tots class will promote balance and spatial awareness and introduce hand and finger plays to build on language development. Our exercises and dance will introduce sequencing and directionality. Massage time will develop an understanding of sensation and how it relates to body awareness. We can enjoy a challenging circuit with lots of activities encouraging weight transfer and balance for these upwardly mobile toddlers!

The learning environment will focus on Emotional and behavioral support with an engaging support for learning from our teachers.

DISCOVERERS CLASS (2 – 2.5 YEARS)

The children in the Discoverers class will develop muscular control, hand/eye co-ordination, keen perception, which will then prepare them to read, write and comprehend their mathematical skills.

Now that the child is walking confidently and is learning about their place in space, a range of movement experience will encourage the pure delight in moving their bodies to the beat. Concept words with sensorial applications help to understand the true meaning of a word and their relationship to vocabulary.

The classes incorporate a circuit with some early motor planning challenges.

EXPLORERS CLASS (2.5 – 3.5 YEARS)

Jumping everywhere! The Explorers class involves specific concepts with a term theme.

Singing, dancing and rhythmical activities encourage sequential development – a very important foundation for later reading skills and mathematics. Imagination, visualization and confidence in coordination are highlighted with our mystery box, treasure bag and sensational parachute games.

Children receive information primarily through the visual, auditory, tactile, and balancing mechanisms within the brain.

All conscious and controlled movement depends on one's ability to interpret their sensory input correctly. Our routine is designed to suit your child's developing skills, while increasing the concentration time and the complexity of instructions.

DAY STRUCTURE

- Daily Assembly
- Circle Time
- Exploration Time
- Outdoor
- Special Activities
